VISIT TO THE ABBEY

SIGHTSEERS FROM THE NORMAL SPENT DAY AT CONCEPTION.

MANY TOWN PEOPLE WENT

A Special Organ Recital, Music by Sisters and Lecture by Father Patrick Charmed Visitors.

It was a tired crowd of sightseers who returned from Conception Thursday evening, but their aches and pains were forgotten in the memories of a most interesting and unusual trip.

All work at the Normal was stopped at 10 o'clock Thursday morning and nearly two hundred of the students and teachers made their way to the Wabash depot, where two special cars were waiting for them. Besides the Normal crowd there were many town people who went on the trip, and the two cars were soon crowded far beyond their capacity, and when the train arrived all available space was soon taken.

Upon reaching Clyde the entire party walked to the grove of the convent grounds, where lunch was served, after which the start was made for the convent. The printing office was visited first, and held many things of interest. It is a very complete little plant and is kept scrupulously clean. Here the Sisters publish a small religious magazine, getting out about eight numbers a year in two editions, a German and an English edition.

Probably the most interesting exhibit in this building was the robes, embroidered and worked by the Sisters themselves.

The party was then taken to the chapel, and Father Patrick, who acted as guide throughout the whole trip, gave a talk, explaining the architecture of the building, its religious significance and the wonderful mosaics in its decorations.

The chapel is built in the Romanesque style of architecture, and, like nearly all Catholic churches, is built to signify the two principles of the church—that is, Christ signified in the cross, in which shape the chapel is built, and the Trinity, signified by the three naves in the chapel. The frescoes and mosaics were beautiful and each picture was explained by Father Patrick, and a short account of the history of the art of mosaics was given. The mosaics in the chapel were made by skilled artisans, who came from Tyrol especially for that purpose. In the picture above the high altar nearly one million stones were used in its construction. An example of the church music was then given by the Sisters in several chants. After a rest of about a half an hour the party started for the abbey. Here they were first taken into the abbey church and listened to a pipe organ recital by Father Charles. Father Patrick then gave a short history of the Benedictine order, from the time of its founder in the sixth century until the present day. The first settlement at Conception was made in 1858 by a band of Irish pioneers who bought twenty thousand acres of land from the government. The abbey was founded in 1873 and the building was begun in 1882, it taking nine years to complete it. The visitors were then allowed to inspect the church at their leisure and were shown several of the chalices and the monstance used in the mass.

The gymnasium and school rooms were visited next, and lastly the library, in which many rare old volumes and manuscripts were shown, dating back as far as the eleventh century.

The walk to Conception Junction was the last stage of the day's tramp, at which a few of the party balked and rode to town. The majority went on foot, however, and many of them kept up their spirits by racing to town, racing only a very short distance at a time, however.

The evening train was more crowded than the noon train had been, and all of the steps and platforms were filled with those who could not get seats and did not care to stand in the aisles.

The trip was a very decided success and the Fathers and Sisters were very obliging in the freedom with which they opened their premises for the visitors, allowing them to visit portions of the building and grounds seldom seen by outsiders. And for these privileges all members of the party were very grateful.

COUNCIL TO TAKE UP WATER SITUATION

The city council will meet tonight in a special session and will discuss the water question. Some action will probably be taken tonight, and it is thought that some wells will be dug on the 102 river. The council intends to take steps at once to improve the situation here. The water supply is about the same. Unless something is done soon it will probably be a great deal worse than at present, as many of the wells over the city are going dry.

PUMPS INSTALLED IN UP-TOWN WELL

A pump was installed this morning in the well in front of the Ferritor drug store. This well was cleaned out a few days ago and is in fine shape, the water being very good. A pump is being put in the well at the southwest corner of the square this afternoon.

Mrs. O. K. Herndon and son, Adolph, and her sister, Mrs. H. A. Suter, and little daughter, Mary, of St. Joseph, went to Barnell Friday to visit their parents, Mr. and Mrs. J. W. Kennedy.

HOPKINS MAN DEAD

H. C. DAVISON DIED THURSDAY AFTER A YEAR'S ILLNESS.

FATHER OF D. G. DAVISON

The Funeral Will Be Held Sunday—Burial Will Be in Vault on Home Farm.

H. C. Davison, a prominent farmer living eight miles northwest of Hopkins, died at his home Thursday evening, after a year's illness. He was the father of D. G. Davison of the firm of Sweitzer & Davison of this city.

The funeral services will be held at the home Sunday afternoon at 2 o'clock, conducted by Rev. R. E. Snodgrass, pastor of the Christian church at Hopkins, who was an intimate friend of Mr. Davison and his family. Burial will take place in the Shearer cemetery on the Davison farm, one-half mile from the residence, in a stone vault that is now being built.

Mr. Davison was born in Page county, Iowa, January 22, 1846, where his entire life was spent. He was married March 26, 1867, to Miss Sarah Ingram of Nodaway county, near Hopkins, and settled on the farm where he died. Four sons and a daughter were born to them, who survive with the mother: Edward Davison, at home; Clyde Davison of Greenfield, Ia.; Wayne Davison, a farmer of Page county, Iowa, near his fathers home; D. G. Davison of Maryville, and Mrs. Frank Winter of near Clarinda, Ia. Mr. Davison also leaves a sister, Mrs. Sarah Cunning, and two brothers, Thomas Davison and George Davison of Page county, Ia., and another brother, Silas Davison, of near Wichita, Kan.

Mr. Davison had never been ill in his life until a year ago, when he was taken with what appeared to be sciatic rheumatism. He spent some time at Excelsior Springs without benefit, and awhile before his death he was found to be suffering from cancerous tumors. Mr. Davison was a good citizen. He became a member of the Methodist Episcopal church in early manhood and lived a consistent life. He was a kind, indulgent husband and father, and his children have no memory of a single unkind or impatient word from him.

ANOTHER YOUNG MAN COMING TO THE FRONT

Another Maryville boy has "come to the front." Nodaway county has a reputation of producing brainy men. For the past ten years all the Nodaway men at the University of Missouri have taken prominent places in the life there. It started back in the time of Dr. F. R. Anthony. Then came Forrest Donnell, Merrill Otis, Jesse Hogan, Fred Wolfers, Homer Croy, Will Sawyers and dozens of others.

The last one to come into the limelight is E. B. Trullinger. Mr. Trullinger has just recently been made assistant editor of the Berkshire World and Cornbelt Stockman at Springfield, Ill.

This is one of the largest farm papers in the United States. Mr. Trullinger has been studying agriculture and journalism at the University of Missouri for the past six years. He will finish his work there in January of next year and will then return to his work on his paper.

Mr. Trullinger's work consists of special work and advertising. He visits sections of the United States and writes up the farming conditions and soils of that country. During the summer he will make the following trips: Colorado, Michigan, Southeast Missouri, Illinois, Louisiana, North Carolina and Indiana.

He visits great live stock farms and writes the history of the farm and the operations conducted there. In the July issue of the Berkshire World he has two special articles. One of them is about Mr. N. H. Gentry of Sedalia. Mr. Gentry is one of the greatest breeders of Berkshire hogs in the world. The article is illustrated with several large cuts. The other article is a write-up of the Sikeston district in Southeast Missouri. This article carries eighteen double column cuts.

Mr. Trullinger will be in Maryville about September 1st for a visit with his parents and friends before returning to his work at the university.

FUNERAL SERVICES AT PRESBYTERIAN CHURCH

The funeral services for Mrs. Albert Bingaman, who died at her home in Burlington, Kan., Wednesday morning, will be held Saturday afternoon at 2 o'clock at the First Presbyterian church, conducted by the pastor, Dr. Charles P. Luce. Burial in Miriam cemetery. The body now lies in state at the home of Fred Diss, 503 North Main street, and will so remain to friends of the family until 1:30 o'clock Saturday afternoon.

Mrs. Bingaman and her family have many friends in and near Maryville, as they had made their home west of this city for thirty-five years previous to their removal to Kansas three years ago.

Mrs. Bingaman, whose maiden name was Mary E. Welcome, was born in West Moreland county, Pa., January 22, 1850. When a small child her parents moved to Keokuk, Ia., removing to Mendon, Ill., when she was 10 years old. She grew to womanhood there and was married November 14, 1860, to Albert Bingaman, also of Mendon, who survives her. When they had been married a year and a half they came to Nodaway county, Missouri, and settled on a farm seven miles west of Maryville, and later removed to a farm eight and one-half miles west of Maryville, which was their home excepting a short time they lived in Maryville, on East Fourth street, before going to Burlington, Kan., in 1908.

Ten children were born to them, four of whom died in infancy. The children living are Alvin Bingaman of Cordell, Okla.; Miss Nena Bingaman, at home; Lydia, wife of Fred Diss of Maryville; Jennie, wife of W. L. Oakerson, of near Skidmore; Fannie, wife of Russell Peter, of near Skidmore; Harry Bingaman of Greenfield, Ia. One brother, J. C. Welcome, of Burns, Ore., and Mrs. Ella McPhaill of Visalia, Cal., also survive.

Mrs. Bingaman made profession of faith in her Savior two weeks before her death and was received into the Presbyterian church at Burlington.

DYING, KISSED WIFE

FORMER MARYVILLE MAN COMMITTED SUICIDE.

ACID ON LIPS BURNED HER

Was Partner of S. A. Heflin in the Harness Business at the Wadley Stand.

John S. Voyles, a real estate man of Independence, Mo., who committed suicide in the yard of his home, 115 Pendleton avenue, at 9 o'clock Wednesday night, was a former Maryville business man.

Mr. Voyles was the partner of S. A Heflin, now of Wilcox, in the harness and buggy business, on the south side of the square, where Wadley Bros. are located. This was about twelve years ago. The partnership existed for one year, when Mr. Voyles sold out and went to Portland, Ore., with his family. Afterwards he sold implements for the J. I. Case Implement company and traveled all through the north and east and was considered a fine salesman.

Mrs. Voyles is a niece of Mr. Heflin. Her father, Jasper M. Heflin, died at his home in Clarinda, Ia., two years ago this July. Her maiden name was Nellie Heflin. They have one daughter, aged 9 years. Mr. Voyles was a native of Warren, Ky., where his parents now reside. He was 48 years old.

Mr. and Mrs. Heflin visited the Voyles family in Independence last January. Mr. Voyles seemed happy and prosperous, and the Heflins are surprised at the reason given in the Kansas City papers for the cause of the suicide, that of despondency over lack of employment.

The following account is given in a Kansas City paper of his suicide:

John S. Voyles, a real estate man, killed himself in a dramatic manner in the back yard of his home, 115 Pendleton avenue, Independence, at 9 o'clock last night. Entering the yard he met his wife.

"This is what finishes me up," he said, and drawing a bottle from his pocket he drank the contents.

Immediately he threw his arms about his wife and kissed her repeatedly, the acid from his lips burning her mouth badly. A small portion of the contents of the bottle was also spilled over her arm and body. Voyles was dead within ten minutes.

Mrs. Voyles became hysterical and was taken to the home of friends, where her burns were treated by a physician. They are not serious.

PRESIDENT OF STATE NORMAL IN PERU

A Maryville friend has recently received a letter from Prof. J. A. MacKnight, who was elected a member of the Northwest Normal faculty two years ago, and at his request was granted a year's leave of absence.

Prof. MacKnight is president of the State Normal at Lima, Peru, and will close his year's work there the first of January. The year previous he was inspector of the city schools of Lima.

He conducted a teachers' institute last summer, the first institute ever held there, and it was a great success. Some of the teachers who attended rode 100 miles on horseback to take advantage of what they considered a wonderful opportunity. Their average salary is $15 per month.

Prof. MacKinney expects to return to the United States as soon as he has closed his year's work with the Lima state normal. He also is publishing an educational magazine. He feels that his stay in Peru has been an advantage to him in many ways. He is well known in this section of Missouri and is among a number who attended the Stanberry normal that are much more than ordinary in the educational field. After leaving the Stanberry normal he went to the Missouri state university and was graduated, and he has since secured diplomas from the Denver university, Columbia university of New York, University of Berlin and Jena.

Mrs. A. F. Dooley and two children, Miss Pearl and Paul, of Hiawatha Kan., returned from a short visit with friends at Bedford over Sunday. At the conclusion of their visit in Hopkins they will take the remains of the late Mr. Dooley from the cemetery here and have it interred in the family burying place in Indiana.

Mrs. Thomas Shinabargar is entertaining her parents, Mr. and Mrs. Crump of California.

Sargent Nash of the Journal force returned last Friday from a vacation trip in Colorado. Sargent left his sister, Miss Della, at Boulder, where she is enjoying life to the fullest extent.

A party of Hopkins people are enjoying life camping on the Nodaway. They left Monday with what seemed to be provisions enough to last forty people for a week, but by Wednesday evening Rev. Snodgrass and Miss Bertha Wible were sent to town for more grub, and we see Claude Grimes is in town tonight (Thursday) and we suppose he is on the same errand. The party is composed of Mr. and Mrs. Isom Snodgrass and family, Mr. and Mrs. Charles Butler, Mr. and Mrs. Claude Grimes and guest, Miss Myrtle Moore, Mr. and Mrs. Roy Sturgeon, Miss Bertha and Mr. Frank Wible, Rev. Ray Snodgrass and Rev. Roy Snodgrass and wife of New Market, Ia.

The ball fans have been in their element for the past week. Last Saturday a game was played on the local diamond with the Tingly, Ia., team, and this team having the reputation of being one of the best independent teams in Southern Iowa, the Hopkins team were shaking in their shoes and thought they would be lucky if they got one score. However, one of the unexplainable things happened and Tingley got the one score while Hopkins had so many we didn't try to count them. The Sunday game was played at Parnell and was won by our team by a score of 8 to 9. Thursday the All Stars of Maryville came up and played the Hopkins Mudhens. These teams are both kid teams, but the Maryville aggregation are well named, as they showed by their playing that they are all stars. Young Tilson on first received numerous compliments from the good natured crowd. It stands to reason that the Maryville boys would play better than Hopkins, as the weather was in their favor. Our boys haven't seen any mud for so long that they couldn't play well. We never saw a mudhen, but we suppose they play in the mud. One Maryville boy was heard to say they would be willing to lose the game if they could play in the mud, as they needed a little rain in Maryville. Here's hoping we all get not only a little rain but a great big "gully washer" soon.

WORLD STEEL TRUST PROBE

Department of Justice Looks into Brussels Conference.

FURTHER LUMBER INQUIRY.

Methods of Manufacturers and Wholesalers Under Scrutiny—Curtailment of Output and Increase of Price Alleged—Twelve Corporations Control.

Washington, July 14.—An investigation of the Brussels conference of steel men, which, it has been predicted, may bring about an international combination to control the steel trade of the world, will be undertaken by the department of justice.

Following a call of Henry D. Martin and Cotter T. Bride, secretary and treasurer, respectively, of the Anti-Trust league, upon President Taft it became known that the Brussels conference would be put under the scrutiny of government agents.

President Taft told his visitors that he believed such an investigation should be made and suggested that they call upon Attorney General Wickersham and Solicitor General Lehmann, who had charge for the department of justice of the investigation of the United States Steel corporation.

Mr. Lehmann said it probably would be some time before the department could turn its attention to the Brussels conference, but just as soon as it got through with business on this side of the Atlantic concerning the steel trade it would look into the international combination.

Further Lumber Inquiry.

Following closely on the criminal action against the Retail Lumber Dealers' associations of the west and the civil anti-trust action against the retailers of the east, the government now has determined upon a thorough inquiry into the methods of manufacturing and wholesaling lumber.

The National Lumber Manufacturers' association, of which Edward Hines of Chicago is past president and a director, probably will be one of the first corporations investigated.

It has been represented on behalf of the retail lumber dealers who have been under fire by the government that the manufacturers were maintaining agreements to curtail the manufacture of lumber so as to increase the demand and the prices; that there have been attempts to monopolize the supply of certain kinds of lumber in certain sections of the country, and that in some sections a uniform price has been maintained which has resulted in increasing the prices 20 per cent in the last two years in the face of a decreasing demand.

Twelve constituent organizations, which are said to control largely the manufacture of lumber from logs, compose the National Lumber Manufacturers' association.

Purdy on Sugar Affairs.

Former Assistant Attorney General Milton D. Purdy told the house sugar trust committee that he never officially knew why Attorney General Bonaparte did not prosecute the officials of the American Sugar Refining company in 1906 for alleged offenses in connection with the absorption of the Pennsylvania Refining company in 1903.

Mr. Purdy declared that while acting attorney general in President Roosevelt's administration he had been much impressed by the facts set forth to him by George H. Earle, Jr., of Philadelphia, who pursued the sugar trust officials in the case and decided at the time the case should be prosecuted. He reported all the facts to Attorney General Bonaparte after his appointment late in 1906 and was never informed by Mr. Bonaparte why the prosecution was not pressed. Mr. Purdy said he never reported to President Roosevelt in this or any other matter. He reported only to Mr. Bonaparte.

COLONY FOR BROADWAY JAGS

New York Officials Will Keep Card Index of Drunkards.

New York, July 14.—From now on a card index will be kept of the records of all male persons arrested in New York for intoxication, an investigation made of what persons are dependent for support upon the offenders, and a hospital and industrial colony will be established for the care and treatment of such cases as are deemed "habitual drunkards." This work was ordered by the board of inebriety, which was authorized by an act of legislature in 1910.

Mrs. P. L. Murrin and children, Lillian and Raymond, went to Stanberry Friday to visit Mrs. William Merrigan.

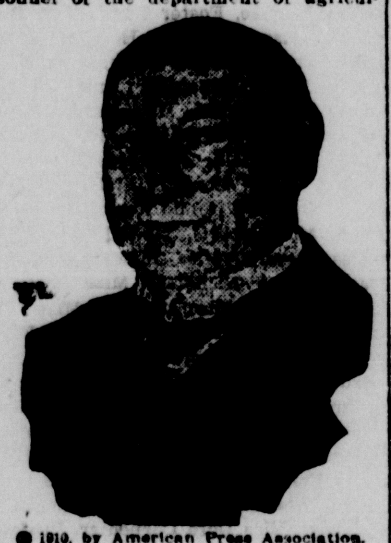
DR. H. W. WILEY IS UNDER FIRE

House Committee Seeks Scalp of Pure Food Expert.

OTHER OFFICIALS INVOLVED.

Removal of Dr. H. H. Rusby and Dr. W. D. Bigelow and Reduction of Dr. L. F. Kebler of Division of Drugs Also Suggested.

Washington, July 14.—Dr. Harvey W. Wiley, pure food expert and chief of the bureau of chemistry of the department of agriculture and one of the most widely known officials in the government service, has been condemned by the committee on personnel of the department of agriculture with a recommendation to President Taft that "he be permitted to resign."



© 1910, by American Press Association.

DR. WILEY.

Attorney General Wickersham, in an opinion on the case submitted to the president, recommends approval of the committee's action.

It is charged against Dr. Wiley that he permitted an arrangement to be made with Dr. H. H. Rusby, a recognized pharmacologist of Columbia university, New York, for compensation in exess of that allowed by law. It is certain that the arrangement was to put Dr. Rusby on the payroll of the department at $1,600 a year as an employee of the bureau of chemistry, an agreement being made with him that he should be called upon to perform only such service as this salary would compensate for at the rate of $20 per day for laboratory investigations and $50 per day for attendance in court.

Attorney General Wickersham held that the law permitted the payment of only $9 a day, this sum later being increased to $11 a day.

Along with the suggestion that Dr. Wiley, because of these alleged irregularities in the employment of Dr. Rusby, be permitted an opportunity to resign, the committee on personnel and the attorney general have recommended the dismissal of Dr. Rusby and the reduction of Dr. L. F. Kebler, chief of the division of drugs in the department of agriculture.

The committee further recommends that Dr. W. D. Bigelow, assistant chief of the bureau of chemistry, also be given an opportunity to resign.

Awaits Reply of Dr. Wiley.

President Taft has forwarded all of the papers in the case to Dr. Wiley and will take no action until he receives a personal statement from him. It is known the president has the highest regard for the pure food expert and for his administration of the bureau of chemistry. Dr. Wiley has been attacked almost constantly since the pure food law went into effect. It has been claimed by the interests affected that Dr. Wiley's rulings have been unduly harsh and unjust. Dr. Wiley has regarded Dr Rusby as one of his most valuable assistants in the difficult task of enforcing the pure food and drug act.

Dr. Rusby received all the papers in the case several days ago. In his reply, he is quoted as saying that he did not seek nor desire the work in the department of agriculture. Dr. Rusby says there has been no hearing on the charges, but justice demands that there should be one. He charges that there was a one-sided presentation of the case to the attorney general, to constitute the basis of opinion.

Wiley Not Frightened.

"I wouldn't advise any one to wait around my office to see me put out; there is not telling how long that will be," said Dr. Wiley when asked for a statement.

"Do I look frightened about this matter? All I know is that a copy of the charges was served on me about a week ago, and I will make reply to them through Secretary Wilson to the president. Until the latter sees fit to make that statement public I have nothing to say in the matter."

Officials Involved in Butterine Scandal

Chicago, July 14.—Two revenue officers and a former government official are charged with accepting bribes in indictments returned by a federal grand jury. Twenty-three officers and employees of butterine manufacturers are charged with conspiracy to defraud the government out of butterine tax, the bribery of government official, it is charged, being a part of the conspiracy.

DON'T FORGET THAT

Alderman's July Clearance Sale

Starts in the Morning. Tremendous price reductions on merchandise in every section of the store.

THERE are sales and sales, big, medium and small, but there never has been, to our knowledge, a sale that compares with this. The very object of this sale---to absolutely clear out all summer goods, loaded stocks, short lots, etc.,--- indicates that it is far from the ordinary. In order to accomplish our object as quickly as possible we offer hundreds of bargains at prices that speak more convincingly than any words how great the reductions really are.

Clearance Sales are held by this store twice each year to reduce stocks. And ONLY twice each year do we give our stocks such a wide-spread turning over. You can readily realize, therefore, how anxious we are to have you appreciate, and to co-operate with us, in this far-reaching event.

Buy all the merchandise you need while assortments are at their best---do not delay. Every day means an enormous lot of goods moved out. It is well to remember also that it is much more pleasant to shop during the early mornings than in the afternoons when the store is crowded to it's full capacity.

The doors will open in the morning, on our 29th Clearing Sale, at 8 o'clock. The sale will start promptly at that time.

Important Notice!

Every article in this store is marked in plain figures. You can see for *yourself* just what the regular prices are. You can figure the reductions and find what the sale prices are. In this way you are *sure* of getting a square deal—there can be no chance for deception, for *juggling of prices.*

Years ago Alderman's adopted this policy. It was the first store in Maryville to do so. It means, essentially, that the price on every article in this store is right. It means also that we are desirous of having you know just what price you *should* pay and what price your neighbor *did* pay.

Alderman's stands for the "one price to all" idea. This tact is well worth remembering *at all times* and *particularly* so during the progress of this sale.

Sample Helps Frail Women

So many women are dragging out weary lives just because their digestive organs are weak. The result is poor circulation, nervousness and the verge of invalidism. It is often very unnecessary and the woman's own fault.

The first thing to do is to look to the welfare of your bowels. There the trouble usually lies. All physicians know that a large percentage of women are habitually constipated, and from this results indigestion, piles, weariness, etc. that women constantly complain of. But there is no use taking "female remedies" and things of that kind until you have started your bowels to moving. You will find that when the bowels move regularly once or twice a day all your petty ills will disappear. Take a good mild laxative tonic like Dr. Caldwell's Syrup Pepsin for awhile and you will find yourself rapidly getting better and stronger, your bowels will regulate themselves and work at stated times, and then your headaches and dizziness will disappear. Don't take strong cathartic pills or salts, but just such a mild and pleasant-tasting remedy as Dr. Caldwell's Syrup Pepsin.

You can obtain a bottle of your druggist for fifty cents or one dollar, and either size may be enough to permanently cure you. Thousands of women keep it regularly in the house and will no longer be without it, as it cured them and can be used with safety by every member of the family, down to the youngest child, but if you have never used it take the advice of Mrs. Earl S. Cox, 409 Twenty-fifth street, Moline, Ill., and Mrs. Ellen Dungan, Muncie, Ind., and send to Dr. Caldwell for a free trial bottle, as they did, and learn for yourself what it will do in your own case. That it will cure you, as it did them, there is no doubt.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R.509 Caldwell building, Monticello, Ill.

DENEEN DENIES STORY OF HINES

Contradicts Lumberman's Version of Telephone Talk.

OPPOSED LORIMER TO LAST.

Illinois Executive Declares He Would Be Willing to Stake His Reputation on There Having Been a Jackpot in the Legislature.

Washington, July 14.—Governor Charles S. Deneen of Illinois furnished a field day in the Lorimer election investigation by the senate special committee. He declared that he did not assist in the election of Senator Lorimer, as some of the senator's friends claimed, but fought against it to the last. He contradicted the version which Edward Hines, a Chicago lumberman, who is charged with having asked for a Lorimer election fund contribution, gave of the telephone conversation between the two on the day Senator Lorimer was elected, May 26, 1909.

Mr. Hines testified he (Hines) telephoned from Chicago to Deneen that he "had just come in this morning from Washington and was on his way to Springfield to bring this message to you (Deneen) from Senator Aldrich and the president, urging upon you to do all you possibly can to assist in the election of a senator at the earliest possible moment," and "that they understood that Lorimer could be elected if you will assist."

Further, Mr. Hines testified that he understood Deneen to say he "would assist in Lorimer's election and would see Lorimer in ten minutes."

Said Taft Sent Request.

Governor Deneen testified that Mr. Hines asked him if he received a message from the president in reference to Lorimer. He said Taft had sent a request to support Lorimer.

"I asked him," Governor Deneen continued, "if he had the message, and he answered, 'No.' He said that the president had sent it and that he had intended to come to Springfield himself, but had missed the train by five minutes.

"I asked him if President Taft had sent that message, for I thought it strange that the president should tell me that. He said: 'Why, he sent it through Senator Aldrich—of course he would not send it to you directly—who would communicate to you through George Reynolds of the Continental bank.'

"I said, 'Very well.'"

"Did you receive a communication from Senator Aldrich or Mr. Reynolds?" asked Attorney J. J. Healy.

"No, sir."

Governor Deneen denied Mr. Hines' version of the conversation in regard to the identity of Hines on this occasion and added that he was not certain that it was Hines talking, but regarded the talk just as he would an anonymous communication.

"Did you tell Mr. Hines that you would assist Mr. Lorimer?" Mr. Healy asked.

"I did not."

Had Talked With Taft.

Governor Deneen said that he had talked with President Taft later about the incident, but he declined to give the conversation unless the president was to be called as a witness.

Governor Deneen discussed the "jackpot," or corruption fund, which he said was reputed to have been divided after each legislature to those who voted "right" during the session.

"Are you willing to stake your reputation as governor on there having been a jackpot in the legislature?" Senator Kenyon inquired.

"I think anyone would be safe in doing that."

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair Is First Sign of Age. Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well-known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

VISIT TO THE ABBEY

SIGHTSEERS FROM THE NORMAL SPENT DAY AT CONCEPTION.

MANY TOWN PEOPLE WENT

A Special Organ Recital, Music by Sisters and Lecture by Father Patrick Charmed Visitors.

It was a tired crowd of sightseers who returned from Conception Thursday evening, but their aches and pains were forgotten in the memories of a most interesting and unusual trip.

All work at the Normal was stopped at 10 o'clock Thursday morning and nearly two hundred of the students and teachers made their way to the Wabash depot, where two special cars were waiting for them. Besides the Normal crowd there were many town people who went on the trip, and the two cars were soon crowded far beyond their capacity, and when the train arrived all available space was soon taken.

Upon reaching Clyde the entire party walked to the grove of the convent grounds, where lunch was served, after which the start was made for the convent. The printing office was visited first, and held many things of interest. It is a very complete little plant and is kept scrupulously clean. Here the Sisters publish a small religious magazine, getting out about eight numbers a year in two editions, a German and an English edition.

Probably the most interesting exhibit in this building was the robes, embroidered and worked by the Sisters themselves.

The party was then taken to the chapel, and Father Patrick, who acted as guide throughout the whole trip, gave a talk, explaining the architecture of the building, its religious significance and the wonderful mosaics in its decorations.

The chapel is built in the Romanesque style of architecture, and, like nearly all Catholic churches, is built to signify the two principles of the church—that is, Christ signified in the cross, in which shape the chapel is built, and the Trinity, signified by the three naves in the chapel. The frescoes and mosaics were beautiful and each picture was explained by Father Patrick, and a short account of the history of the art of mosaics was given. The mosaics in the chapel were made by skilled artisans, who came from Tyrol especially for that purpose. In the picture above the high altar nearly one million stones were used in its construction. An example of the church music was then given by the Sisters in several chants. After a rest of about a half an hour the party started for the abbey. Here they were first taken into the abbey church and listened to a pipe organ recital by Father Charles. Father Patrick then gave a short history of the Benedictine order, from the time of its founder in the sixth century until the present day. The first settlement at Conception was made in 1858 by a band of Irish pioneers who bought twenty thousand acres of land from the government. The abbey was founded in 1873 and the building was begun in 1882, it taking nine years to complete it. The visitors were then allowed to inspect the church at their leisure and were shown several of the chalices and the monstance used in the mass.

The gymnasium and school rooms were visited next, and lastly the library, in which many rare old volumes and manuscripts were shown, dating back as far as the eleventh century.

The walk to Conception Junction was the last stage of the day's tramp, at which a few of the party balked and rode to town. The majority went on foot, however, and many of them kept up their spirits by racing to town, racing only a very short distance at a time, however.

The evening train was more crowded than the noon train had been, and all of the steps and platforms were filled with those who could not get seats and did not care to stand in the aisles.

The trip was a very decided success and the Fathers and Sisters were very obliging in the freedom with which they opened their premises for the visitors, allowing them to visit portions of the building and grounds seldom seen by outsiders. And for these privileges all members of the party were very grateful.

COUNCIL TO TAKE UP WATER SITUATION

The city council will meet tonight in a special session and will discuss the water question. Some action will probably be taken tonight, and it is thought that some wells will be dug on the 102 river. The council intends to take steps at once to improve the situation here. The water supply is about the same. Unless something is done soon it will probably be a great deal worse than at present, as many of the wells over the city are going dry.

PUMPS INSTALLED IN UP-TOWN WELL

A pump was installed this morning in the well in front of the Ferritor drug store. This well was cleaned out a few days ago and is in fine shape, the water being very good. A pump is being put in the well at the southwest corner of the square this afternoon.

Mrs. O. K. Herndon and son, Adolph, and her sister, Mrs. H. A. Suter, and little daughter, Mary, of St. Joseph, went to Barnell Friday to visit their parents, Mr. and Mrs. J. W. Kennedy.

HOPKINS MAN DEAD

H. C. DAVISON DIED THURSDAY AFTER A YEAR'S ILLNESS.

FATHER OF D. G. DAVISON

The Funeral Will Be Held Sunday—Burial Will Be in Vault on Home Farm.

H. C. Davison, a prominent farmer living eight miles northwest of Hopkins, died at his home Thursday evening, after a year's illness. He was the father of D. G. Davison of the firm of Sweitzer & Davison of this city.

The funeral services will be held at the home Sunday afternoon at 2 o'clock, conducted by Rev. R. E. Snodgrass, pastor of the Christian church at Hopkins, who was an intimate friend of Mr. Davison and his family. Burial will take place in the Shearer cemetery on the Davison farm, one-half mile from the residence, in a stone vault that is now being built.

Mr. Davison was born in Page county, Iowa, January 22, 1846, where his entire life was spent. He was married March 26, 1867, to Miss Sarah Ingram of Nodaway county, near Hopkins, and settled on the farm where he died. Four sons and a daughter were born to them, who survive with the mother: Edward Davison, at home; Clyde Davison of Greenfield, Ia.; Wayne Davison, a farmer of Page county, Iowa, near his fathers home; D. G. Davison of Maryville, and Mrs. Frank Winter of near Clarinda, Ia. Mr. Davison also leaves a sister, Mrs. Sarah Cunning, and two brothers, Thomas Davison and George Davison of Page county, Ia., and another brother, Silas Davison, of near Wichita, Kan.

Mr. Davison had never been ill in his life until a year ago, when he was taken with what appeared to be sciatic rheumatism. He spent some time at Excelsior Springs without benefit, and awhile before his death he was found to be suffering from cancerous tumors. Mr. Davison was a good citizen. He became a member of the Methodist Episcopal church in early manhood and lived a consistent life. He was a kind, indulgent husband and father, and his children have no memory of a single unkind or impatient word from him.

ANOTHER YOUNG MAN COMING TO THE FRONT

Another Maryville boy has "come to the front." Nodaway county has a reputation of producing brainy men. For the past ten years all the Nodaway men at the University of Missouri have taken prominent places in the life there. It started back in the time of Dr. F. R. Anthony. Then came Forrest Donnell, Merrill Otis, Jesse Hogan, Fred Wolfers, Homer Croy, Will Sawyers and dozens of others.

The last one to come into the limelight is E. B. Trullinger. Mr. Trullinger has just recently been made assistant editor of the Berkshire World and Cornbelt Stockman at Springfield, Ill.

This is one of the largest farm papers in the United States. Mr. Trullinger has been studying agriculture and journalism at the University of Missouri for the past six years. He will finish his work there in January of next year and will then return to his work on his paper.

Mr. Trullinger's work consists of special work and advertising. He visits sections of the United States and writes up the farming conditions and soils of that country. During the summer he will make the following trips: Colorado, Michigan, Southeast Missouri, Illinois, Louisiana, North Carolina and Indiana.

He visits great live stock farms and writes the history of the farm and the operations conducted there. In the July issue of the Berkshire World he has two special articles. One of them is about Mr. N. H. Gentry of Sedalia. Mr. Gentry is one of the greatest breeders of Berkshire hogs in the world. The article is illustrated with several large cuts. The other article is a write-up of the Sikeston district in Southeast Missouri. This article carries eighteen double column cuts.

Mr. Trullinger will be in Maryville about September 1st for a visit with his parents and friends before returning to his work at the university.

FUNERAL SERVICES AT PRESBYTERIAN CHURCH

The funeral services for Mrs. Albert Bingaman, who died at her home in Burlington, Kan., Wednesday morning, will be held Saturday afternoon at 2 o'clock at the First Presbyterian church, conducted by the pastor, Dr. Charles P. Luce. Burial in Miriam cemetery. The body now lies in state at the home of Fred Diss, 503 North Main street, and will so remain to friends of the family until 1:30 o'clock Saturday afternoon.

Mrs. Bingaman and her family have many friends in and near Maryville, as they had made their home west of this city for thirty-five years previous to their removal to Kansas three years ago.

Mrs. Bingaman, whose maiden name was Mary E. Welcome, was born in Westmoreland county, Pa., January 22, 1859. When a small child her parents moved to Keokuk, Ia., removing to Mendon, Ill., when she was 10 years old. She grew to womanhood there and was married November 14, 1869, to Albert Bingaman, also of Mendon, who survives her. When they had been married a year and a half they came to Nodaway county, Missouri, and settled on a farm seven miles west of Maryville, and later removed to a farm eight and one-half miles west of Maryville, which was their home excepting a short time they lived in Maryville, on East Fourth street, before going to Burlington, Kan., in 1908.

Ten children were born to them, four of whom died in infancy. The children living are Alvin Bingaman of Cordell, Okla.; Miss Nena Bingaman, at home; Lydia, wife of Fred Diss of Maryville; Jennie, wife of W. L. Oakerson, of near Skidmore; Fannie, wife of Russell Peter, of near Skidmore; Harry Bingaman of Greenfield, Ia. One brother, J. C. Welcome, of Burns, Ore., and Mrs. Ella McPhaill of Visalia, Cal., also survive.

Mrs. Bingaman made profession of faith in her Savior two weeks before her death and was received into the Presbyterian church at Burlington.

DYING, KISSED WIFE

FORMER MARYVILLE MAN COMMITTED SUICIDE.

ACID ON LIPS BURNED HER

Was Partner of S. A. Heflin in the Harness Business at the Wadley Stand.

John S. Voyles, a real estate man of Independence, Mo., who committed suicide in the yard of his home, 115 Pendleton avenue, at 9 o'clock Wednesday night, was a former Maryville business man.

Mr. Voyles was the partner of S. A. Heflin, now of Wilcox, in the harness and buggy business, on the south side of the square, where Wadley Bros. are located. This was about twelve years ago. The partnership existed for one year, when Mr. Voyles sold out and went to Portland, Ore., with his family. Afterwards he sold implements for the J. I. Case Implement company and traveled all through the north and east and was considered a fine salesman.

Mrs. Voyles is a niece of Mr. Heflin. Her father, Jasper M. Heflin, died at his home in Clarinda, Ia., two years ago this July. Her maiden name was Nellie Heflin. They have one daughter, aged 9 years. Mr. Voyles was a native of Warren, Ky., where his parents now reside. He was 48 years old.

Mr. and Mrs. Heflin visited the Voyles family in Independence last January. Mr. Voyles seemed happy and prosperous, and the Heflins are surprised at the reason given in the Kansas City papers for the cause of the suicide, that of despondency over lack of employment.

The following account is given in a Kansas City paper of his suicide:

John S. Voyles, a real estate man, killed himself in a dramatic manner in the back yard of his home, 115 Pendleton avenue, Independence, at 9 o'clock last night. Entering the yard he met his wife.

"This is what finishes me up," he said, and drawing a bottle from his pocket he drank the contents.

Immediately he threw his arms about his wife and kissed her repeatedly, the acid from his lips burning her mouth badly. A small portion of the contents of the bottle was also spilled over her arm and body. Voyles was dead within ten minutes.

Mrs. Voyles became hysterical and was taken to the home of friends, where her burns were treated by a physician. They are not serious.

PRESIDENT OF STATE NORMAL IN PERU

A Maryville friend has recently received a letter from Prof. J. A. MacKnight, who was elected a member of the Northwest Normal faculty two years ago, and at his request was granted a year's leave of absence.

Prof. MacKnight is president of the State Normal at Lima, Peru, and will close his year's work there the first of January. The year previous he was inspector of the city schools of Lima.

He conducted a teachers' institute last summer, the first institute ever held there, and it was a great success. Some of the teachers who attended rode 100 miles on horseback to take advantage of what they considered a wonderful opportunity. Their average salary is $15 per month.

Prof. MacKinney expects to return to the United States as soon as he has closed his year's work with the Lima state normal. He also is publishing an educational magazine. He feels that his stay in Peru has been an advantage to him in many ways. He is well known in this section of Missouri and is among a number who attended the Stanberry normal that are much more than ordinary in the educational field. After leaving the Stanberry normal he went to the Missouri state university and was graduated, and he has since secured diplomas from the Denver university, Columbia university of New York, University of Berlin and Jena.

When reading have the light fall on the page over the left shoulder. Never try to read with insufficient light. Do not continue reading or sewing after your eyes have begun to tire. Never use eye salves or washes except upon the advice of a physician. If after you heed these warnings your eyes even still give you trouble, visit our optical department, and get a properly fitted pair of glasses.

NEWS OF HOPKINS AND COMMUNITY

Mrs. Bess Goodson left Tuesday evening for St. Louis on busines.

Mrs. Arnie Douglas and little son are visiting her mother, Mrs. Wheeler, in Bedford.

Mrs. J. W. Edwards of Savannah arrived Sunday night for a short visit with her father, Robert Hook.

Miss. Sophia Forcade, a former teacher in the Hopkins schools, arrived Saturday night from her home, near Clearmont, for a visit with her numerous friends here.

The farmers along the Saints Ridge from Gaynor to Orrsburg, are getting all sorts of compliments from the boys who went to Parnell to play ball last Sunday. They say that part of the road is in superb condition.

Miss Pearl Tout of Ottumwa, Ia., who has been visiting her aunt, Mrs. Estella Douglas, went to St. Joseph Tuesday morning to spend the week with Mrs. Walter Eichelberger.

Mr. Arthur Hanford, a prominent ranchman of Idaho, is in Hopkins, the guest of Miss Edith Kime.

A. J. Gordon went to Kansas City last week and returned with his father, who is quite sick. The aged gentleman will be cared for at the Gordon home.

Rev. Tinkham and family leave this week for their new home at Russell, Ia.

A. J. Roof, Otis Gray and son, Mrs. Dr. Hunterson, and little daughter, and Miss Belle Stewart of Parnell, drove over in their Ford and spent Wednesday afternoon with Mrs. Mary Martin.

The new home of Mrs. Yeomans is getting started and when finished will be the fourth residence to be built by Contracter Owens this summer. These, with the three new cement block buildings going up will add quite a little to the appearance of the town.

The new fly trap made of wire screening seems to be the most popular thing in town at present. They certainly catch the fly, and we think they would be fine around barns and stock.

The tent meetings are still in full force with good crowds in attendance each night. Rev. Witte is a fine Bible student, has a wonderful memory and puts up a pretty good argument from his point of view.

Mrs. A. F. Dooley and two children, Miss Pearl and Paul, of Hiawatha Kan., returned from a short visit with friends at Bedford over Sunday. At the conclusion of their visit in Hopkins they will take the remains of the late Mr. Dooley from the cemetery here and have it interred in the family burying place in Indiana.

Mrs. Thomas Shinabargar is entertaining her parents. Mr. and Mrs. Crump of California.

Sargent Nash of the Journal force returned last Friday from a vacation trip in Colorado. Sargent left his sister, Miss Della, at Boulder, where she is enjoying life to the fullest extent.

A party of Hopkins people are enjoying life camping on the Nodaway. They left Monday with what seemed to be provisions enough to last forty people for a week, but by Wednesday evening Rev. Snodgrass and Miss Bertha Wible were sent to town for more grub, and we see Claude Grimes is in town tonight (Thursday) and we suppose he is on the same errand. The party is composed of Mr. and Mrs. Isom Snodgrass and family, Mr. and Mrs. Charles Butler, Mr. and Mrs. Claude Grimes and guest, Miss Myrtle Moore, Mr. and Mrs. Roy Sturgeon, Miss Bertha and Mr. Frank Wible, Rev. Ray Snodgrass and Rev. Roy Snodgrass and wife of New Market, Ia.

The ball fans have been in their element for the past week. Last Saturday a game was played on the local diamond with the Tingly, Ia., team, and this team having the reputation of being one of the best independent teams in Southern Iowa, the Hopkins team were shaking in their shoes and thought they would be lucky if they got one score. However, one of the unexplainable things happened and Tingley got the one score while Hopkins had so many we didn't try to count them. The Sunday game was played at Parnell and was won by our team by a score of 8 to 9. Thursday the All Stars of Maryville came up and played the Hopkins Mudhens. These teams are both kid teams, but the Maryville aggregation are well named, as they showed by their playing that they are all stars. Young Tilson on first received numerous compliments from the good natured crowd. It stands to reason that the Maryville boys would play better than Hopkins, as the weather was in their favor. Our boys haven't seen any [illegible] for so long that they couldn't play well. We never saw a mudhen, but we suppose they play in the mud. One Maryville boy was heard to say they would be willing to lose the game if they could play in the mud, as they needed a little rain in Maryville. Here's hoping we all get not only a little rain but a great big "gully washer" soon.

WORLD STEEL TRUST PROBE

Department of Justice Looks Into Brussels Conference.

FURTHER LUMBER INQUIRY.

Methods of Manufacturers and Wholesalers Under Scrutiny—Curtailment of Output and Increase of Price Alleged—Twelve Corporations Control.

Washington, July 14.—An investigation of the Brussels conference of steel men, which, it has been predicted, may bring about an international combination to control the steel trade of the world, will be undertaken by the department of justice.

Following a call of Henry D. Martin and Cotter T. Bride, secretary and treasurer, respectively, of the Anti-Trust league, upon President Taft it became known that the Brussels conference would be put under the scrutiny of government agents.

President Taft told his visitors that he believed such an investigation should be made and suggested that they call upon Attorney General Wickersham and Solicitor General Lehmann, who had charge for the department of justice of the investigation of the United States Steel corporation.

Mr. Lehmann said it probably would be some time before the department could turn its attention to the Brussels conference, but just as soon as it got through with business on this side of the Atlantic concerning the steel trade it would look into the international combination.

Further Lumber Inquiry.

Following closely on the criminal action against the Retail Lumber Dealers' associations of the west and the civil anti-trust action against the retailers of the east, the government now has determined upon a thorough inquiry into the methods of manufacturing and wholesaling lumber.

The National Lumber Manufacturers' association, of which Edward Hines of Chicago is past president and a director, probably will be one of the first corporations investigated.

It has been represented on behalf of the retail lumber dealers who have been under fire by the government that the manufacturers were maintaining agreements to curtail the manufacture of lumber so as to increase the demand and the prices; that there have been attempts to monopolize the supply of certain kinds of lumber in certain sections of the country, and that in some sections a uniform price has been maintained which has resulted in increasing the prices 20 per cent in the last two years in the face of a decreasing demand.

Twelve constituent organizations, which are said to control largely the manufacture of lumber from logs, compose the National Lumber Manufacturers' association.

Purdy on Sugar Affairs.

Former Assistant Attorney General Milton D. Purdy told the house sugar trust committee that he never officially knew why Attorney General Bonaparte did not prosecute the officials of the American Sugar Refining company in 1906 for alleged offenses in connection with the absorption of the Pennsylvania Refining company in 1903.

Mr. Purdy declared that while acting attorney general in President Roosevelt's administration he had been much impressed by the facts set forth to him by George H. Earle, Jr., of Philadelphia, who pursued the sugar trust officials in the case and decided at the time the case should be prosecuted. He reported all the facts to Attorney General Bonaparte after his appointment late in 1906 and was never informed by Mr. Bonaparte why the prosecution was not pressed. Mr. Purdy said he never reported to President Roosevelt in this or any other matter. He reported only to Mr. Bonaparte.

COLONY FOR BROADWAY JAGS

New York Officials Will Keep Card Index of Drunkards.

New York, July 14.—From now on a card index will be kept of the records of all male persons arrested in New York for intoxication, an investigation made of what persons are dependent for support upon the offenders, and a hospital and industrial colony will be established for the care and treatment of such cases as are deemed "habitual drunkards." This work was ordered by the board of inebriety, which was authorized by an act of legislature in 1910.

Mrs. P. L. Murrin and children, Lillian and Raymond, went to Stanberry Friday to visit Mrs. William Merrigan.

Picnic at McJimsey Park.

Miss Dora McKenzie entertained with a picnic supper at McJimsey park Wednesday evening for her guest, Miss Ethel Stewart of Kansas City. Beside the hostess and guest of honor there were present Misses Rose, Effie and Gladys Collins, Cleo and Marie Grundy, Clarice Hartman, Donna Young, Sylvesta and Lorena Holladay and their guest, Miss Opal Desmond of St. Louis; Lena Robinson, Opal Key, Verna Woodard and Mr. and Mrs. Del Thompson.

House Committee Seeks Scalp of Pure Food Expert.

OTHER OFFICIALS INVOLVED.

Removal of Dr. H. H. Rusby and Dr. W. D. Bigelow and Reduction of Dr. L. F. Kebler of Division of Drugs Also Suggested.

Washington, July 14.—Dr. Harvey W. Wiley, pure food expert and chief of the bureau of chemistry of the department of agriculture and one of the most widely known officials in the government service, has been condemned by the committee on personnel of the department of agricul-

ture with a recommendation to President Taft that "he be permitted to resign."

Attorney General Wickersham, in an opinion on the case submitted to the president, recommends approval of the committee's action.

It is charged against Dr. Wiley that he permitted an arrangement to be made with Dr. H. H. Rusby, a recognized pharmacologist of Columbia university, New York, for compensation in exess of that allowed by law. It is certain that the arrangement was to put Dr. Rusby on the payroll of the department at $1,600 a year as an employee of the bureau of chemistry, an agreement being made with him that he should be called upon to perform only such service as this salary would compensate for at the rate of $20 per day for laboratory investigations and $50 per day for attendance in court.

Attorney General Wickersham held that the law permitted the payment of only $9 a day, this sum later being increased to $11 a day.

Along with the suggestion that Dr. Wiley, because of these alleged irregularities in the employment of Dr. Rusby, be permitted an opportunity to resign, the committee on personnel and the attorney general have recommended the dismissal of Dr. Rusby and the reduction of Dr. L. F. Kebler, chief of the division of drugs in the department of agriculture.

The committee further recommends that Dr. W. D. Bigelow, assistant chief of the bureau of chemistry, also be given an opportunity to resign.

Awaits Reply of Dr. Wiley.

President Taft has forwarded all of the papers in the case to Dr. Wiley and will take no action until he receives a personal statement from him. It is known the president has the highest regard for the pure food expert and for his administration of the bureau of chemistry. Dr. Wiley has been attacked almost constantly since the pure food law went into effect. It has been claimed by the interests affected that Dr. Wiley's rulings have been unduly harsh and unjust. Dr. Wiley has regarded Dr Rusby as one of his most valuable assistants in the difficult task of enforcing the pure food and drug act.

Dr. Rusby received all the papers in the case several days ago. In his reply, he is quoted as saying that he did not seek nor desire the work in the department of agriculture. Dr. Rusby says there has been no hearing on the charges, but justice demands that there should be one. He charges that there was a one-sided presentation of the case to the attorney general, to constitute the basis of opinion.

Wiley Not Frightened.

"I wouldn't advise any one to wait around my office to see me put out; there is not telling how long that will be," said Dr. Wiley when asked for a statement.

"Do I look frightened about this matter? All I know is that a copy of the charges was served on me about a week ago, and I will make reply to them through Secretary Wilson to the president. Until the latter sees fit to make that statement public I have nothing to say in the matter."

Officials Involved in Butterine Scandal

Chicago, July 14.—Two revenue officers and a former government official are charged with accepting bribes in indictments returned by a federal grand jury. Twenty-three officers and employees of butterine manufacturers are charged with conspiracy to defraud the government out of butterine tax, the bribery of government official, it is charged, being [illegible] part of the conspiracy.

DON'T FORGET THAT

Alderman's July Clearance Sale

Starts in the Morning. Tremendous price reductions on merchandise in every section of the store.

THERE are sales and sales, big, medium and small, but there never has been, to our knowledge, a sale that compares with this. The very object of this sale---to absolutely clear out all summer goods, loaded stocks, short lots, etc.,---indicates that it is far from the ordinary. In order to accomplish our object as quickly as possible we offer hundreds of bargains at prices that speak more convincingly than any words how great the reductions really are.

Clearance Sales are held by this store twice each year to reduce stocks. And ONLY twice each year do we give our stocks such a wide-spread turning over. You can readily realize, therefore, how anxious we are to have you appreciate, and to co-operate with us, in this far-reaching event.

Buy all the merchandise you need while assortments are at their best---do not delay. Every day means an enormous lot of goods moved out. It is well to remember also that it is much more pleasant to shop during the early mornings than in the afternoons when the store is crowded to it's full capacity.

The doors will open in the morning, on our 29th Clearing Sale, at 8 o'clock. The sale will start promptly at that time.

Important Notice!

Every article in this store is marked in plain figures. You can see for *yourself* just what the regular prices are. You can figure the reductions and find what the sale prices are. In this way you are *sure* of getting a square deal—there can be no chance for deception, for *juggling of prices.*

Years ago Alderman's adopted this policy. It was the first store in Maryville to do so. It means, essentially, that the price on every article in this store is right. It means also that we are desirous of having you know just what price you *should* pay and what price your neighbor *did* pay.

Alderman's stands for the "one price to all" idea. This fact is well worth remembering *at all times* and *particularly* so during the progress of this sale.

Sample Helps Frail Women

So many women are dragging out weary lives just because their digestive organs are weak. The result is poor circulation, nervousness and the verge of invalidism. It is often very unnecessary and the woman's own fault.

The first thing to do is to look to the welfare of your bowels. There the trouble usually lies. All physicians know that a large percentage of women are habitually constipated, and from this results indigestion, piles, weariness, etc., that women constantly complain of. But there is no use taking "female remedies" and things of that kind until you have started your bowels to moving. You will find that when the bowels move regularly once or twice a day all your petty ills will disappear. Take a good mild laxative tonic like Dr. Caldwell's Syrup Pepsin for awhile and you will find yourself rapidly getting better and stronger, your bowels will regulate themselves and work at stated times, and then your headaches and dizziness will disappear. Don't take strong cathartic pills or salts, but just such a mild and pleasant-tasting remedy as Dr. Caldwell's Syrup Pepsin.

You can obtain a bottle of your druggist for fifty cents or one dollar, and either size may be enough to permanently cure you. Thousands of women keep it regularly in the house and will no longer be without it, as it cured them and can be used with safety by every member of the family, down to the youngest child, but if you have never used it take the advice of Mrs. Earl S. Cox, 409 Twenty-fifth street, Moline, Ill., and Mrs. Ellen Dungan, Muncie, Ind., and send to Dr. Caldwell for a free trial bottle, as they did, and learn for yourself what it will do in your own case. That it will cure you, as it did them, there is no doubt.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for yourself or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R.509 Caldwell building, Monticello, Ill.

DENEEN DENIES STORY OF HINES

Contradicts Lumberman's Version of Telephone Talk.

OPPOSED LORIMER TO LAST.

Illinois Executive Declares He Would Be Willing to Stake His Reputation on There Having Been a Jackpot in the Legislature.

Washington, July 14.—Governor Charles S. Deneen of Illinois furnished a field day in the Lorimer election investigation by the senate special committee. He declared that he did not assist in the election of Senator Lorimer, as some of the senator's friends claimed, but fought against it to the last. He contradicted the version which Edward Hines, a Chicago lumberman, who is charged with having asked for a Lorimer election fund contribution, gave of the telephone conversation between the two on the day Senator Lorimer was elected, May 26, 1909.

Mr. Hines testified he (Hines) telephoned from Chicago to Deneen that he "had just come in this morning from Washington and was on his way to Springfield to bring this message to you (Deneen) from Senator Aldrich and the president, urging upon you to do all you possibly can to assist in the election of a senator at the earliest possible moment," and "that they understood that Lorimer could be elected if you will assist."

Further, Mr. Hines testified that he understood Deneen to say he "would assist in Lorimer's election and would see Lorimer in ten minutes."

Said Taft Sent Request.

Governor Deneen testified that Mr. Hines asked him if he received a message from the president in reference to Lorimer. He said Taft had sent a request to support Lorimer.

"I asked him," Governor Deneen continued, "if he had the message, and he answered, 'No.' He said that the president had sent it and that he had intended to come to Springfield himself, but had missed the train by five minutes.

"I asked him if President Taft had sent that message, for I thought it strange that the president should tell me that. He said: 'Why, he sent it through Senator Aldrich—of course he would not send it to you directly—who would communicate to you through George Reynolds of the Continental bank.'

"I said, 'Very well.'"

"Did you receive a communication from Senator Aldrich or Mr. Reynolds?" asked Attorney J. J. Healy.

"No, sir."

Governor Deneen denied Mr. Hines' version of the conversation in regard to the identity of Hines on this occasion and added that he was not certain that it was Hines talking, but regarded the talk just as he would an anonymous communication.

"Did you tell Mr. Hines that you would assist Mr. Lorimer?" Mr. Healy asked.

"I did not."

Had Talked With Taft.

Governor Deneen said that he had talked with President Taft later about the incident, but he declined to give the conversation unless the president was to be called as a witness.

Governor Deneen discussed the "jackpot," or corruption fund, which he said was reputed to have been divided after each legislature to those who voted "right" during the session.

"Are you willing to stake your reputation as governor on there having been a jackpot in the legislature?" Senator Kenyon inquired.

"I think anyone would be safe in doing that."

OSLER RIGHT; YOUTH SUCCEEDS AGE

Gray Hair Is First Sign of Age. Harmless Remedy Restores to Natural Color.

Osler isn't the only man who turns down old age. In the business world the "young man" is always the one who picks the plums. It is an age of "new thought," "new talent," etc., and the old man is passed by in the race.

One of the first signs of coming age is the appearance of gray hairs. When you see them, act promptly. Wyeth's Sage and Sulphur Hair Remedy will correct this sign, which so often deceives people into thinking that age is really upon them. It is a well-known fact that Sage and Sulphur will darken the hair. Wyeth's Sage and Sulphur combines these old-time remedies with other agents, which remove dandruff and promote the growth of the hair.

The manufacturers of this remedy authorize the druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists.

Special Agent, Koch Pharmacy.

Idle Capital is an Extravagance

no community can afford; to do anyone a benefit it must be kept moving and to do the most good it should seek legitimate channels. Then let us divorce ourselves from the prevailing "get rich quick" fever and get back to the good ways of our forefathers. Put your money into something at home, where it will HELP YOUR HOME TOWN and enhance the other interests you may have. Why not build a home? There's no satisfaction like that borne of the knowledge you own a home. Start it today and tomorrow you'll awaken with a feeling of independence like that of 1776. Of course you'll need lumber, but we can quickly help you out, as our stock is complete and most orders can be filled the day we get them.
